FROM **1** LITER OF FLAVOR
+ **399** LITERS OF WATER
= YOU GET **400** LITERS OF FLAVOR

The central image shows a glass beaker with a scale on its side, ranging from 0 to 500. The beaker is filled with a pink liquid up to the 400 mark. A glass dropper with a black cap is positioned above the beaker, with a single drop of pink liquid falling into it. The background is a soft, light-colored gradient with faint, out-of-focus pink circles.

Flavorings have become a basic necessity in the manufacture of various products, as they add a natural flavor, such as smell and taste, for various food industries, juices, foods, and ice cream, in addition to flavors of molasses and tobacco. Flavors Gold has also developed perfumes, detergents and air fresheners that are used in our daily life with a long-term smell and persistence with international specifications. On the other hand, Flavors Gold has developed meat spices, mortadella, chips and various food spices. And our company was able to improve the taste, aroma and focus of various products to suit the good taste in the global markets.
